Personal Details

- Date of Birth : 10/04/1992
- Marital Status : Single

Objective

Experienced analytical chemist seeking for a Chemist position to develop, learn and fulfill my career goals .
Coming with strong organizational and interpersonal skills and ability to work within tight time constraints.

Experience

- **Dal Mining** 04/09 /2022 - Currently
Instrument Operator
 - Operate analytical equipment in the analysis of geochemical samples in order to meet client requirements of turnaround time and quality.
 - Perform routine basic day to day instrument maintenance and repairs to ensure optimal performance and availability of the instruments.
 - Perform instrument calibration to ensure accurate data is produced during analysis of samples.
 - Maintain safe work conditions and clean, orderly work environment at all times to ensure contamination is eliminated or minimized.
 - Perform work within established quality control parameters to implement appropriate corrective actions on nonconforming work before reporting of data.
 - Maintain inventory of instrument consumables to avoid equipment downtime.
 - Ensure all work is performed in strict adherence to work instructions and strong commitment to quality and integrity to ensure data quality is achieved consistently.

- **Alliance mining company** 20/06/2017 - 20/08/2022
Chemist
 - Perform analysis utilizing a variety of laboratory equipment and procedures that include wet chemistry methods, AAS, XRF, ICP-OES and fire assaying.
 - Schedule, coordinate, and perform chemical and metallurgical analysis and related data analysis.
 - Develop, maintain, and improve standard operating procedures for chemical processing operations.
 - Establish and maintain accurate and cost-effective testing procedures for the laboratory.
 - Manage hazardous waste inventories and aid with proper waste treatment operations in accordance with state, local, and federal requirements.
 - Ensure compliance with Quality Assurance requirements. Troubleshoot and maintain laboratory equipments.

- **Ministry of Petroleum and Gas** 04/04 /2017 - 04/04 /2018
Analytical chemist
 - Perform both routine and non-routine analytical testing.
 - Develop new analytical methods & optimize existing analytical methods as needed.
 - Maintain accurate and complete records of all analytical testing and laboratory scale trials / evaluations performed in the lab.
 - Maintain adequate supplies of all necessary laboratory consumable items.
 - Maintain the laboratory in a clean and orderly fashion at all times, while ensuring that all required analytical instrumentation and other equipment in the laboratory is properly maintained, calibrated, and ready for use.
 - Abide and maintain the ISO and HSE standards.

Education

- **Sudan Academy of banking and financial science** 2023 - present
Master of Business Administration
- **University of Khartoum** 2010 - 2017
B.Sc in Chemistry (Honor degree)

Skills

- ° Ability to self-development and learning. ° Good communication (spoken and written) skills, including the ability to explain and present Technical information, effectively train/advise users on systems related issues. ° Good presenting, reporting and documentation skills. ° Ability to work under high stress, in teams, and also individually Possess good coordination at work. ° Computer Basic skills MS office. ° working relations in a multi-cultural, multi-national, multi-ethnic environment with sensitivity and respect for diversity.
