## Laboratory Analyst

Quality Control Laboratory Analyst with 5 years of experience in various pharmaceutical laboratories. I am currently employed and looking for a new opportunity.

## Job Titles

### Quality Control Analyst

05/2017 - 06/2021

Pharmaceutical Company  
PHARMA 5 - Casablanca

- Prepare and test the samples recovered from the various production phases, with the aim of determining whether the substances meet the project requirements.
- Perform routine laboratory analyzes of bulk products, finished products and stability samples according to internal methods, the European PH and the USP.
- Interpret the results of tests, calculations and write reports.
- Follow Good Manufacturing Practices (GMP) and Good Laboratory Practices (GLP)

### Laboratory Analyst

08/2022 - On going

Pharmaceutical Company  
Maphar - Casablanca

- Perform quality control of the raw material according to European Pharmacopoeia, USP and internal methods.
- Preparation of reagents and titration of solutions.
- Entry and interpretation of results in the Laboratory Information Management System (LIMS) software.
- Identification and diagnosis of malfunctions and/or anomalies and proposal of relevant solutions.

## Internships

### Laboratory Technician

10/2016 - 12/2016

Medical analysis laboratory  
GENELAB - Casablanca

- Analyze blood samples, urine using the microscope to detect abnormalities.
- Checking Benchtop Records.
- Sterilization of materials (autoclave).
- Automated analyzer analysis and control.

## Softwares

---

- ▶ Microsoft office: Word, Excel, Powerpoint
- ▶ HPLC Software(open lab, EZchrome, empower 3, total chrome, workstation).
- ▶ Laboratory Information Management System Software (LIMS).

## Hobbies

---

- ▶ Cooking
- ▶ Reading
- ▶ Walking
- ▶ Movies
- ▶ Travel

## Laboratory Technician

Medical analysis laboratory  
L.I.A.B - Casablanca

01/2017 - 04/2017

- Examine secretions of the human body.
- Perform serological analyzes in an efficient and accurate manner. Record results in computer systems and maintain files.
- Perform quality control, instrumentation, and calibration and reagent preparation.
- Perform microbiological tests (enumeration, isolation, identification and preparation of culture media).

## Education

---

- 09/2012 - 07/2016 - Molecular biology (Bsc)  
Hassan II University - Casablanca  
Thesis subject: The extraction of the SDG molecule from flaxseed and the study of its effect on triglycerides.
- 09/2009 - 06/2012 - Baccalaureate  
Amr Bnou Ass High school - Casablanca  
Physical and chemical sciences

## Hard Skills

---

- Microbiology techniques:  
Enumeration.  
Isolation and characterization of microorganisms.
- Molecular biology techniques:  
Isolation and purification of DNA and proteins, Polymerase Chain Reaction (PCR), electrophoresis techniques.
- Immunology techniques:  
ELISA, immunoprecipitation techniques.
- Analytical chemistry techniques:  
Chromatography (HPLC and TLC), Spectroscopic method (visible UV, Infrared IR), Ensure separation and purification methods (extraction) melting point, KF humidity, PH, Conductimetry. Volumetric dosing, calorimetric dosing, pontentionmeter, rotary power.
- Preparation of reagents and interpretation of results and writing of reports.

## Soft Skills

---

- Analytical mind and technical agility when working with complex systems.
- Ability to work independently as well as in a team.
- Good ability to manage time and organize.
- Excellent communicator with a spirit of initiative.

Casablanca, 16th March 2023
